Subject: Microsoft Settlement

I appeal to the United States Government NOT to settle with Microsoft.

In addition to the reasons set forth by the United States Department of Justice in bringing the Anti-Trust it seems that Microsoft's arrogance has grown to the point of being out of control.

To example, Microsoft now requires that their newest operating system, known as XP MUST be activated by their WPA (Windows Product Activation) which requiresd that the XP product send private information about the user's equipment to Microsoft or else the product will stop functioning.

I can advise that any elected official that supports this settlement with Microsoft will not get my and/or my family's vote. We can not permit this BIG BROTHER policy by Microsoft.

For those that agree with the above please send tyuor comments to the email address shown above.
United, we the consumer can win!
